

LIGHTING + LUNCH WEBINAR SERIES

WEDNESDAY JULY 15th 2020

Please email rsvp@rclurie.com and let us know which sessions you would like to attend. We will send you a calendar invite and a link to order a meal via GrubHub!

SESSION A: 9 AM (30 minutes)

Acoustic Luminaires with Luxxbox

With cutting-edge technologies and design, Luxxbox's acoustic solutions offer a myriad of options designed to reduce sound and provide genuine economic benefits resulting in happy, healthy people and workspaces. This presentation will offer noise-reduction strategies as well as an introduction to the latest product releases.

SESSION B: 10 AM (45 minutes)

New architectural lighting releases with A-Light

ALOFT and ALIGN are two sleek new lighting systems designed to allow for almost infinite configurations, offering modular solutions with elements such as swivel joiners and magnetic components for ultimate flexibility. We will also review the WGD9, the award-winning wall grazer which enhances textures and brightens any space.

SESSION C: 12 PM (1 hour)

Kenall Lighting - Treat Your Building as a Patient (1 AIA LU)

This presentation will study the role of the built environment in Healthcare Acquired Infections (HAI's). It will specifically focus on the Operating Room and the concerns unique to that setting. Methods for improving environmental hygiene will be reviewed with attention given to a new class of whole-room disinfection.

SESSION D: 2 PM (1 hour)

Germicidal lighting for the workplace with The Lighting Quotient

The Lighting Quotient's tambient G305 offers expert-designed task and ambient light which can be combined with a separately controlled UV-C energy mode for disinfecting work surfaces for offices, schools, labs, call centers, and more. This patent pending technology integrates a "UV-C energy mode" into a complete workplace lighting solution.
