Lean is an acoustic lay-in where project ceiling tiles become part of the luminaire.

Lean's components can be collapsed and compacted to reduce overall shipping impact compared to typical 2'x2' fixtures.

Less materials, less packaging, less space, less fuel, less embodied carbon.
Lean does more with less.

Saving
150kg
of CO₂

Up to an
88%
reduction
in shipping

Offering an
80%
reduction
in weight
