PENNY

PENNY-ID INDOOR SURFACE

BROWNLEE

2100 LED

The multifaceted Penny collection is comprised of both indoor (Penny-ID) and outdoor (Penny-OD) rated models. Full breakdown below.
Penny-ID Surface - Model # 2100 | Penny-ID Pendant - Model # 2700
Penny-OD Surface - Model # 7200 | Penny-OD Pendant - Model # 7400
Penny-OD Cartelver - Model # 7205

While minimal in terms of aesthetic, it is everything but minimal from an application standpoint. Penny is functional enough for corridor illumination, fun enough for cluster mounting in lobbies and common areas, and durable enough for outdoor environments. Penny can also be wiped down for use in healthcare settings.

FINISHES

2100 (surface) / 2700 (pendant)
